Supports up to TOTAL 0.70A for MCEP-C□8-070/MSPP Series

A070W Analog Series A070W Digital Series

This constant current power supply is exclusively for the MCEP/MSPP Series.

As part of MORITEX's initiatives towards environmental issues, this power supply was designed in accordance with the Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (RoHS Directive), enacted in Europe in July of 2006. In the future, this model will conform to the RoHS Directive. The intensity control types 1 channel and 3 channel support multiple input voltages (AC 100 to 240V) and CE Marking.
